All_GABAergic All_Neuronal Astro CGE_Class Deep_layer_glutamatergic Endo OPC Oligo Peri Upper_layer_glutamatergic VLMC

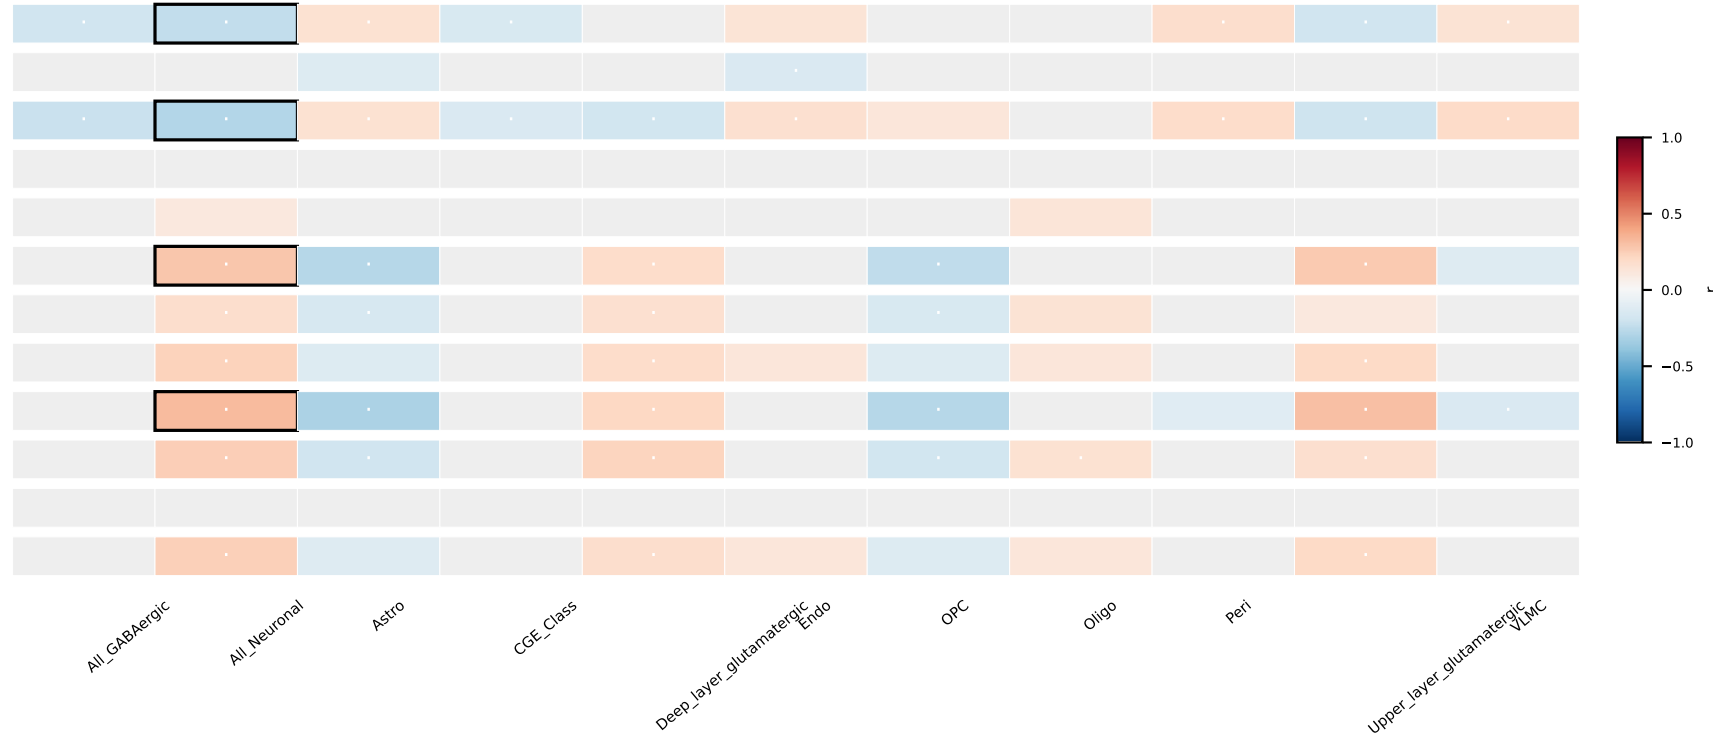

Horizontal bar chart showing the number of significant and non-significant variants for different other categories. The x-axis represents the number of variants, with markers at +0.1kb, +0.5kb, and +0.9kb. The y-axis lists categories from other_1 to other_12. Blue bars indicate non-significant variants, and red bars indicate significant variants (any Ct).

Category	Significant (any Ct)	Not Significant
other_12	0	~0.8
other_9 ★	~0.1	0
other_11	0	~0.8
other_8 ★	~0.1	0
other_7 ★	~0.1	0
other_10	0	~0.4
other_6 ★	~0.1	0
other_5 ★	~1.2	0
other_4 ★	~0.6	0
other_3 ★	~0.1	0
other_2	0	~0.1
other_1	0	~0.1

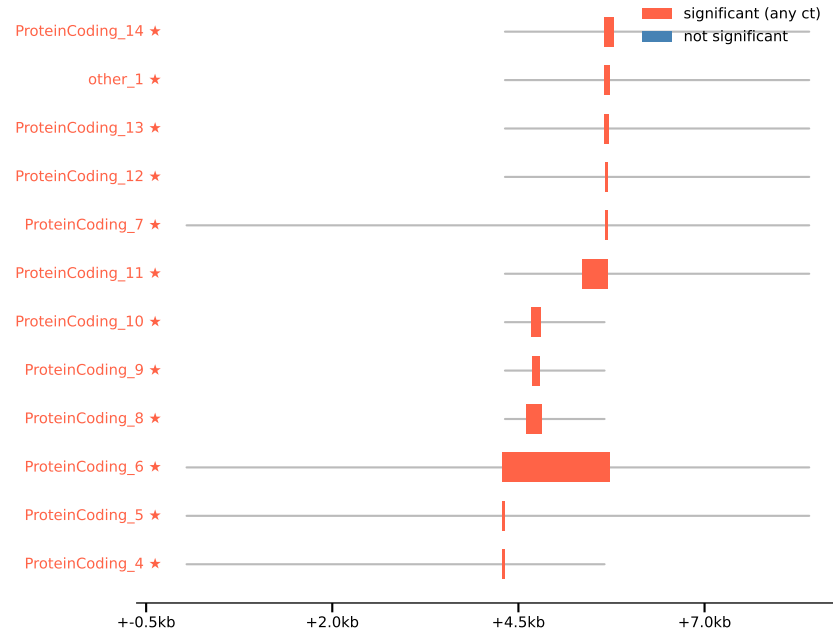

Heatmap showing the correlation of gene expression across different cell types. The color scale ranges from -1.0 (blue) to 1.0 (red). The cell types are All_Neuronal, Astro, Deep_layer_glutamatergic, Endo, Oligo, and Upper_layer_glutamatergic. The heatmap shows various correlation patterns, with some cells highlighted in blue and others in orange.

Heatmap showing the distribution of cell types across different brain regions. The x-axis lists cell types: All_GABAergic, All_Neuronal, Astro, CGE_Class, Deep_layer_glutamatergic, Endo, OPC, Oligo, Peri, and Upper_layer_glutamatergic VLMC. The y-axis lists brain regions: Cerebellum, Cerebrum, Hippocampus, Hypothalamus, Midbrain, Pons, Spinal_cord, and Tectum. The color scale ranges from 0 (light blue) to 1 (light orange). A black box highlights the 'All_Neuronal' cell type in the 'Cerebrum' region.
